Kubernetes Engineer

WORK EXPERIENCE

Resume Worded, London, United Kingdom

Education technology startup with 50+ employees and \$100m+ annual revenue

Kubernetes Engineer

01/2022 – Present

- Automated the deployment of 55+ cloud services using Docker and Kubernetes in the first month of employment.
- Tracked all automation processes and reduced 83% of errors using Puppet and other software configuration management tools.
- Partnered with 17+ agile team members to roll out microservice infrastructure development feature releases based on 90% of client requests.
- Developed and optimized 34+ applications to run on Kubernetes, AWS, and GCP; received a letter of commendation from senior management.

Polyhire, London, United Kingdom

Assists organizations globally to deliver high-quality software applications

Software Tester

07/2021 – Current

- Assisted in initiating a project turnaround after uncovering 13+ critical defects in a high-level application worth \$750K.
- Spearheaded bug-fixing efforts during the grave-shift period, helping to reduce 95% of annual labor costs in 2020
- Created a testing framework that boosted efficiency in discovering errors and tracking defects before release, which elevated the production schedule by 75%.
- Performed penetration tests with zero-day vulnerability discovery tools on 28+ applications; identified and fixed vulnerabilities within the software.

Growthsi, London, United Kingdom & Barcelona, Spain

Career training and membership SaaS with 150,000 users

AWS Architect

06/2018 – 09/2019

- Initiated continuous integration pipelines with Jenkins and GitHub webhooks to automate the build process of 121+ applications.
- Created 30+ documented instructions on building resources, setting up SNS notifications, and performing everyday AWS tasks.
- Designed subnets, security groups, IAM roles & policies, EC2 instances (t2/m3), and other AWS infrastructure for 20+ fintech companies in Europe.
- Provided technical support for IT-related issues via 150+ phone calls, 500 emails, and 210+ remote desktop sessions to 21+ business units and locations.
